Demonstrations

All of the demonstrations listed below will be “on-going” all weekend in the sense that there will be dedicated stations for each and the demonstrators will generally be on hand to interact with participants. Demonstrators will of course take breaks periodically to get a drink, view other demonstrations/presentations, etc.

***Some* of these demonstrations will also have a time slot scheduled for Sunday when the demonstrator will give a brief introduction/talk about the work they are doing at their station.**

KEZUROU-KAI USA
